WHO WE ARE

The Arizona Indian Gaming Association represents Indian Tribes in Arizona representing 90% of the Indian people living in the state. AIGA membership includes both gaming and non-gaming tribes since our compact allows non-gaming tribes to benefit from gaming through machine transfers.

AIGA supports Indian gaming in Arizona allowing gaming to directly benefit Arizona tribes and the state by:

- Generating revenues to fund serious, unmet needs of tribes for health, welfare, education and infrastructure;
- Employing more than 21,000 Arizonans through direct and indirect jobs;
- Contributing more than \$1 billion in revenue to the state through employee payroll taxes, contributions to cities, towns, counties and shared revenues;
- Purchasing almost 90% of goods and services from Arizona vendors which has a combined direct, indirect and induced impact of purchasing and hiring nearly \$1 billion a year of gross state product.
